2+YEAR PLAN - Spring Start

For Catalog Fall 2023 and later

	Year One
1. Project Overview	The project aims to develop a new software application for managing customer relationships. The primary goal is to enhance the efficiency of the sales team and improve customer satisfaction.
2. Objectives	- Develop a user-friendly interface for sales representatives. - Integrate with existing CRM systems. - Implement robust security measures to protect customer data.
3. Scope	The project will cover the development, testing, and deployment of the software. It will include training for the sales team and ongoing support during the initial phase.
4. Timeline	The project is scheduled to start in January and conclude by June. Key milestones include: - Requirement gathering: January 15 - January 30 - Design phase: February 1 - February 28 - Development: March 1 - May 15 - Testing: May 16 - June 1 - Deployment: June 2 - June 15
5. Budget	The estimated budget for the project is \$150,000. This includes development costs, testing, deployment, and training. A detailed budget breakdown is provided in the attached spreadsheet.
6. Risks	Key risks identified include: - Scope creep: Regular communication and change management processes will be implemented to mitigate this risk. - Resource availability: Ensuring that the development team has sufficient resources throughout the project. - Integration challenges: Conducting thorough testing to ensure seamless integration with existing systems.
7. Conclusion	The project is well-planned and has a clear path forward. With proper execution and monitoring, we are confident in achieving the project goals and delivering a high-quality software solution.
