Personal Development

Mozambique September 2011 – December 2011

- In 2011, I spent four months in Pemba Mozambique. I was with Iris Ministries attending their Harvest Mission School. Iris was founded by Heidi and Roland Baker. The base I was at in Pemba includes a church, orphanage, hospital, and school. We volunteered to help with each of those, in addition to taking classes taught by the Bakers and other missionaries, we also did evangelistic outreaches, and local community events. My time in Mozambique was one of the hardest, most life changing, and most rewarding experiences of my life.

Internship with Pastor Page January 2014 – August 2014

- In 2014, I interned under Pastor Kelvin Page at Westmore Church of God. It was a great learning experience to see up close the work and ministry that Pastor Kelvin does. I saw how he balanced wisdom, authority, compassion, and care all to help members of his congregation to the best of his ability.
